

CWD Product and Service Information

Coconut oil:

Did you know that coconut oil has medium-chain fatty acids that our bodies need to fight off infections? Not only does it kill parasites, it is also a healing property for fungal and yeast infections. The medium-chain fatty acids are quickly absorbed by the tissues and converted into energy. Because of this, it would seem logical in helping those suffering from chronic fatigue. All food contains energy and the energy in the products that we carry is very high. Our premium coconut oil has a count of 380 out of a count of 500 on the energy scale and the DME Coconut Oil has a count of 480 on the energy scale of 500.

Alkaline/ionized water:

Water with a higher pH, powerful antioxidants in every glass, and has superior hydration (up to 6 times more hydrating than other waters). Extra oxygen helps to improve your pH balance which is very beneficial to those who do not have an alkaline diet. It is a proven scientific fact that viruses, bacteria and diseases live in acid, so if your body is alkaline those things cannot live in it.

Retractable hose:

New to Canada Water Depot is a retractable hose. You can fill your bottles in the trunk of your vehicle and have someone lift them out for you when you arrive home. You can also fill your RVs at this station. The hose is located at our side vending machine and is available to our customers' spring, summer and part of the fall. Unfortunately, it will not be available during the winter months due to freezing. In you're still unsure of what to do, just come in and we will be glad to assist you.

Fun party gifts:

Redneck wine glasses

Martini glasses

Margarita glasses

Redneck beer mugs

Redneck bride and groom wine glasses

Business details:

We are a mother/daughter run business. Occasionally, Auntie Marilyn comes in to help out as well. We invite you to come in and meet Bobbi (full-time), Elaine and Marilyn (both part-time) and become part of our Canada Water Depot family.
